MESSAGE

From the creator of coherence visual

Coherence Visual (Digital marketing agency)

01

Commitment

We craft engaging social media strategies tailored to your brand's voice. Our services include content planning, social media management, paid advertising, ensuring your brand reaches and engages the right audience.

02

Analytical

An agency is all about solving clients' problems at a profit. Keep generating solutions whether the problem is large or small in scale

03

Consistent

Success is not about greatness, it's about consistency. Consistent hard work leads to success. Greatness will come.

04

Trend

The purpose of an agency is to create brands that create customers. Adaptability and flexibility have always been central to content creation.

COHERENCE VISUAL

PROCEDURE

Right after clients get on board, we follow a formal process through which we execute & complete projects

Brainstorming

A roadmap & strategy is provided to the client after a brainstorming session between the managing directors, creative head, strategist & content writer. The strategy highlights the methods which will be used to reach the goal that client wants for their business.

Content

The content writer prepares a content calendar for posts that will be created for client's social media. This includes engaging posts, messaging posts, ad posts & brand-building posts which enables us to position the business in audience's minds.

Approval

Thirdly, the content prepared, is sent to the client for approval. If the client approves then it is forwarded to the creative team for graphics. Otherwise, the content is revised according to client demands & forwarded to creative team later after approval.

Creative Team

This team consists of graphic designers who are highly skilled in their work, they design & create each post which is first approved by client then sent to execution team for uploading. This team is equipped with high-end systems creative tools to meet their needs.

Execution

The execution uploads all content after client's approval, they optimize it using relevant hashtags to reach more audiences, captions are also added on posts focused to engage audience as much as possible. This team uses different up-to-date soft wares to search words.
